

## Arkansas Cross Roads

This block has been around a long time but usually is 12 inches while we are doing 9 inch blocks. I've resized it for us.

Supplies -

2 white 5 inch squares

8 blue  $2\frac{3}{4}$  inch squares

4 red  $2\frac{3}{4}$  inch squares

With the 4 red and 4 of the blue squares make 4 patches as shown.

Draw a diagonal line on the remaining blue squares. Place them on the white on diagonal corners. Sew directly on the lines. Press them out and trim the extra fabric from behind the triangles you just formed.

Put the 4 pieces together as shown.
