

## New York - New York Beauty

The 2 middle pointed rows are paper pieced. The yellow and outside white piece is just cut from your fabric. Increase your stitch length to 2 or 2.5 to sew all the rows together after paper piecing at length 1.5. Pin each pair of rows at the ends, then at the middle. You can add more pins if you need them to keep your block flat with no pleats. Sew with the convex curve on the bottom and the concave on the top. That's yellow on the bottom with blue/white pointed strip on the top, etc. Press all the rows towards the yellow.
